

FAASTeam presents:

CFI Open Forum

Main talking points will be how a CFI should conduct an IPC and some accident review, but we will open the discussion to answer as many questions as we can.

Joey "Gordo" Sanders is a leading expert in all aspects of aviation from Military Fighters & Tankers, Helicopters, 121 Freight Operations (FED-X), Seaplane operations, Air Racing (Big Red- Reno Air Racing), A&P Mechanic and a DPE for over ten years. Gordo has over 17,000 flight hours and has been actively involved in all aspects of aviation his entire adult life. He loves to share his knowledge and experience to promote aviation and aviation safety. Come review some of the finer points about how to prepare students for their check ride and how to prepare them for an exciting career in aviation.

Directions: Sanders Aviation is located on the West side of the main tarmac, at the Jasper, AL Airport (JFX) Bevill Field.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
